The Organisational Rules define which businesses can be approved by the Management Board and which ones require the approval of the Chairman of the Board of Directors or the Board of Directors pursuant to approval requirements based on the extent and nature of the respective business.

Information and control system of the Management Board

The Management Board informs the Board of Directors on a regular and timely basis about the course of business primarily by means of a comprehensive financial management information system (MIS) report, which provides monthly worldwide consolidated results by segment and country including comparative actual, budgeted and prior-year figures as well as consolidated Balance Sheet and Cash Flow analysis.

The CEO and the CFO are generally invited to meetings of the Board of Directors, the Audit Committee as well as to the meetings of the Chairman's Committee. Members of the Management Board can take part in Nomination and Compensation Committee meetings by invitation.

Risk Management

Risk management is a fundamental element of the Group's business practice at all levels and covers different types of risks. At Group level, risk management is an integral part of the business planning and controlling processes. Material risks are monitored and regularly discussed with the Audit Committee or the Risk and Compliance Committee, the latter of which is consisting of the CEO and the CFO, the Chief Compliance Officer, the Corporate Head of Internal Audit and the Group General Counsel. The risk management system within the Group covers both financial and operational risks.

Risk management is part of the Internal Control System (ICS). Preventive and risk-reducing measures to control risks are proactively taken on different levels and are a fundamental part of the management responsibility. The finance and accounting department conducts, in collaboration with regional management and the Management Board, a risk assessment at least once a year. Details on risk management, including identified risks, are provided in the Status Report on page 16.

Compliance

Integrity as key element of business behaviour creates trust amongst business partners. Therewith the Group is able to carry the responsibility as a reliable and successful business partner. The Chairman of the Board of Directors and the CEO issued an updated release of the KN Ethics & Compliance Programme in December 2021. This programme provides guidance for legal, regulatory, and other compliance requirements, as well as global communication and training initiatives. Ongoing compliance trainings continue to form key elements to ensure that members of all levels of the Group are and remain adequately knowledgeable and skilled to apply the KN Ethics & Compliance Programme in their day-to-day work. This includes top-down KN Code of

Conduct live trainings as well as comprehensive live anti-bribery, anti-corruption, and anti-trust training initiatives. The Group encourages employees to raise concerns of potential violations of the KN Code of Conduct, amongst other channels, to a global 24/7 confidential reporting line enabling reports in a safe, confident and, if desired, anonymous manner.

The Kuehne+Nagel Group applies a risk-based integrity due diligence (IDD) process for evaluating business partners.

Internal Audit

The Internal Audit function reports directly to the Chairman of the Board of Directors about ongoing activities and audit reports and acts under the supervision of the Audit Committee. Kuehne+ Nagel's Internal Audit is an independent, objective assurance and consulting activity that assists the Management to exercise their responsibilities efficiently by assessing the adequacy and effectiveness of internal controls.

For resolutions concerning the discharge of the members of the Board of Directors, persons who currently take part in the company's management in any manner do not have a voting right.

Registered shares may only be represented by persons who are entered in the share register as shareholders or beneficiaries who have a written power of attorney. Individual companies, partnerships or legal entities may arrange to be represented by legal representatives or representatives pursuant to the Articles of Association or by other authorised representatives, married persons by their spouse, minors and persons in guardianship by their legal representative, even if their representatives are not shareholders. Each shareholder may also arrange to be represented by the elected independent proxy.

Statutory quorums

In general, the legal rules on quorums and terms apply. The following shall require a resolution to be passed by the General Meeting by at least two thirds of the voting rights represented and by a majority of the nominal value of the shares represented:

The statutory auditors report regularly to the Audit Committee. In 2022, the auditor in charge attended two Audit Committee meetings. The main criteria for the selection of the external audit company are its worldwide network, reputation and pricing.

General trading blackout periods

(According to the revised Directive on Information relating to Corporate Governance, Annex clause 10 DCG as of 1 July 2021)

Background

The Kuehne+Nagel Group has defined recurring trading blackout periods, during which members of the Board of Directors, members of the Management Board and employees, e.g. working in Corporate Finance, Corporate Legal, and Corporate Communications, and other employees as specifically defined by Kuehne+Nagel Group from time to time (prohibited persons), are prohibited from trading Kuehne+Nagel Group shares and any other types of securities related to such shares (including purchase options).

Scope

The restrictions apply to

- all transactions in Kuehne+Nagel securities including shares issued by Kuehne+Nagel, options to purchase Kuehne+Nagel

shares or any other types of securities related to Kuehne+Nagel shares (Kuehne+Nagel Securities). It also applies to shares and other types of securities of another entity where such entity enters into strategic discussions and/or transactions with the Group regarding a combination or consolidation, merger, acquisition or similar transaction.

Exceptions to the prohibition of insider trading and market manipulation

The recurring trading blackout periods are subject to exemptions provided by Swiss law (e.g. for share buyback programmes). However, such exemption will not apply to a buyback of own Kuehne+Nagel securities, if the buyback programme is announced or the buyback of own equity occurs during blackout periods).

General blackout periods

The recurring trading blackout periods begin as soon as the annual, half-year, quarterly or interim financial results are known to the prohibited persons, but in no event later than:

- for annual results: on the day the profit and loss electronic data information has been received at the corporate headquarters, whereby, for members of the Board of Directors other than the Chairman of the Board of Directors, the recurring trading blackout period begins when they have acquired knowledge about such information;

- for half-year, quarterly or interim financial results: two weeks before publishing the financial results, whereby, for members of the Board of Directors other than the Chairman of the Board of Directors, the recurring trading blackout period begins one week before the publication of the financial results.

The recurring trading blackout periods end on the day of the publication of the relevant financial results. The exact dates of the recurring trading blackout periods are set out in the insider trading policy of the Kuehne+Nagel Group for the relevant year.
