

## Road Logistics

# eTruckNow Africa

Don't stay in the dark about your cross-border shipments. Take control like never before with our cloud-based solution that delivers **more than visibility**.

**Real-time shipment insights** across borders.

**Cloud-based web platform**, accessible anywhere, anytime.

**Actionable alerts** via email or text message.

**+15 languages** are supported, including Afrikaans.

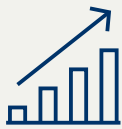

**With eTruckNow, we combined our expertise in cross-border shipping with our digital know-how to automate your manual workflows online.**

**Ilse Brews**  
National Sales  
Director Southern  
Africa Cluster

“We understand the struggles of Supply Chain Managers who handle cross-border movements in Africa and worked with our innovation team to empower them in their work. This kind of actionable visibility is a game-changer here.”

## Your benefits as Supply Chain Manager:

### Save time and money

No need to actively monitor shipments, because eTruckNow will notify you when it matters, and enable you to automate manual workflows online.

### Gain full control

A single source of truth about your shipments' whereabouts, accessible anywhere and anytime on our cloud-based web platform.

### Manage documents online

Receive your proof of delivery (POD) in near real-time in a secure web environment, to prove your transactions easily.
