

Sea Logistics

# Less than container load (LCL)

Full service for your part loads

# Less than container load (LCL)

Kuehne+Nagel's less than container load (LCL) shipping solution is an essential part of a smart supply chain, giving you the highest flexibility—no matter the cargo volume.

## Efficiency and flexibility

If you plan shipments that do not fill an entire container, less than container load (LCL) is the more economical option. Regardless of your company's size, less than container load (LCL) lets you ship affordably and make your business more efficient.

From your door to the final destination, we take care of your cargo, optimise logistics processes and offer full visibility. All you have to do is concentrate on driving success.

## Fast transit time

Less than container load (LCL) shipments are always routed with the fastest available option. This may be through direct transport with the shortest transit time or, when not possible, a route with only one stop.

## Sustainability

Since January 2020, all of Kuehne+Nagel's part load shipments are automatically carbon neutral—with no extra cost to you.

Through our sustainability goals, we help you achieve a smaller carbon footprint so your supply chain is more environmentally friendly.

## Reliability

With weekly departures in an extensive routing network, part load services are a flexible and reliable option. We offer 450+ direct sailing services connecting all global key markets.

The ultimate goal is to offer you the best container shipping solutions. Where no direct service is available, our multinational gateway setup of 24,000+ connections lets us bundle flows and increase sailing frequencies.

## About us

Kuehne+Nagel is the global number one in sea logistics. Over 10,000 sea logistics experts worldwide ensure Kuehne+Nagel customers can access reliable sea transport on all major trading routes and 150,000 port connections. Its focus is on shipping full container loads (FCL) and less than container loads (LCL), perishable and fresh cargo shipments as well as project logistics. We offer a flexible and reliable service and a multitude of connections in an independent network spanning multiple shipping companies. Innovative digital information solutions such as seaexplorer ensure full visibility and customised supply chains, whatever the size of the company.
